Mr. Richard L. Bosserman  
22249 East Maple Lane  
Lewistown, IL 61542

Dear Mr. Bosserman:

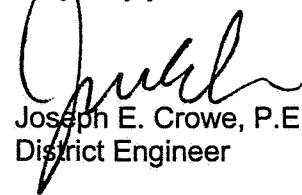

Thank you for your comments of February 25, 2004 regarding the preferred corridor for the Peoria to Macomb highway. After reviewing all comments, we have expanded the corridor between Marietta and Macomb northward about 1¼ miles. The Peoria to Macomb Newsletter is enclosed to show the new expanded area. The rest of the corridor remains unchanged.

A copy of your comments is included for your reference. The following is our response to your comments:

In your comments, you expressed your support for the project. The Department appreciates your support for the project and encourages you to stay involved with the project as the actual roadway alignments are developed over the next three to four years.

The Department wishes to thank you for both your attendance and participation at the Public Hearing. To the extent possible and proper, the Peoria to Macomb highway will incorporate the constructive recommendations of all citizens who took the time to participate in this process.

Very truly yours,

Joseph E. Crowe, P.E.  
District Engineer

February 2004**

**Your Thoughts About the Illinois Route 336 Corridor Study  
Peoria to Macomb**

Which Public Hearing did you attend? Check box.

February 24<sup>th</sup> in Peoria ☐

February 25<sup>th</sup> in Canton, ☒

February 26<sup>th</sup> in Macomb ☐

After IDOT has received the input from the public hearings, a final decision will be made about the corridor. Please provide any specific comments or concerns you have about the preferred corridor you saw presented at this meeting.

Once the corridor is finalized, IDOT will begin a more detailed study of specific alternate highway locations within the selected corridor. While the corridor ranges from about 1½ to 5 miles wide, a strip only about 300 feet wide is needed for each of the highway alternatives. Please provide any specific concerns or comments you have about the location of the four-lane highway within the corridor.

**COMMENTS:**

I am IN FAVOR OF the New Route  
336 along A B CORRIDOR.

THIS WILL ALSO GIVE OPPORTUNITY FOR  
JOBS TO WORKERS ON the NEW 336  
AND ALSO JOBS at connecting Citie

EXPENSE is always going to be the  
BIGGEST CONCERN.

**COMMENTS:**

I believe the corridor looks very good and that whatever the final exact location is, is not the important factor. The important thing is to get this highway to this region of Illinois. How could anyone complain over a few miles here or there when the nearest highway now maybe 25 miles away. This highway needs to get done, that is the most important thing.

Illinois Department of Transportation

Re: Illinois Route 336 (Peoria to Macomb)  
Meeting at Canton High School

Gentlemen:

I whole-heartedly support your choice of Corridor AB for the proposed 336 highway between Peoria and Macomb. I also agree with your rationale for choosing Corridor AB.

Corridor AB was chosen as the preferred route in 1970 for the same reasons that it has been chosen now, but this time it has the public support to overwhelm any negative views. The traffic pattern created by the route flows much better than any other route, it interacts with the area population centers much better than any other route, and it is the most economical to build because of topographical advantages of the corridor along with the use of the existing railroad right-of-way.

Support in the Farmington area is strong!

Sincerely yours,

Joseph L. Higgs  
Vice President  
& Loan Officer

Mr. Jeff Wilson  
1210 South Fourth Street  
Pekin, IL 61554

Dear Mr. Wilson:

Thank you for your comments of February 25, 2004 regarding the preferred corridor for the Peoria to Macomb highway. After reviewing all comments, we have expanded the corridor between Marietta and Macomb northward about 1¼ miles. The Peoria to Macomb Newsletter is enclosed to show the new expanded area. The rest of the corridor remains unchanged.

A copy of your comments is included for your reference. The following is our response to your comments:

In your comments, you expressed your support for the project. The Department appreciates your support for the project and encourages you to stay involved with the project as the actual roadway alignments are developed over the next three to four years.

The Department wishes to thank you for both your attendance and participation at the Public Hearing. To the extent possible and proper, the Peoria to Macomb highway will incorporate the constructive recommendations of all citizens who took the time to participate in this process.

Very truly yours,

A handwritten signature in black ink, appearing to read 'Joe Crowe', written over the typed name and title.

Joseph E. Crowe, P.E.  
District Engineer

Peoria to Macomb**

Which Public Hearing did you attend? Check box.

February 24<sup>th</sup> in Peoria ☐

February 25<sup>th</sup> in Canton ☒

February 26<sup>th</sup> in Macomb ☐

After IDOT has received the input from the public hearings, a final decision will be made about the corridor. Please provide any specific comments or concerns you have about the preferred corridor you saw presented at this meeting.

Once the corridor is finalized, IDOT will begin a more detailed study of specific alternate highway locations within the selected corridor. While the corridor ranges from about 1½ to 5 miles wide, a strip only about 300 feet wide is needed for each of the highway alternatives. Please provide any specific concerns or comments you have about the location of the four-lane highway within the corridor.

**COMMENTS:**

*I travel to Macomb, Canton & Farmington for business purposes and I think this road is very important. It would make my travel easier and safer. I also think businesses would be glad to have a road of this type. Please build this road as soon as possible.*

**COMMENTS:**

*Without a highway, this area of the State will stagnate. Without a highway no industry will locate in this part of the State. Without a highway, there will be no reason for our youth to stay in this area, hence no further, no growth, no economy.*

## This image shows a single sheet of white paper with horizontal blue or grey ruling lines. The lines are evenly spaced and run across the width of the page. There are approximately 20 lines visible. The paper appears to be a standard notebook page, possibly from a composition book. The edges of the paper are slightly irregular, suggesting it might be a scan of a physical document. There is no handwriting or other markings on the page.

Thank you.
